Change to the Confer Rights MDRO/CDAD Summary Data Section

Please be aware that an update has been made to the Confer Rights MDRO/CDAD Summary Data section in NHSN. This change was made so completion of this section would be clearer and easier for our users. When this change was deployed in the system, all existing conferred rights should have been mapped appropriately to the new sections, so no action is required on your part. This notification is simply to highlight the change. The format for the Confer Rights MDRO/CDAD Events section, where specific numerator events are shared, remains unchanged. The previous MDRO/CDAD Summary Data section has now been divided into two separate sections: 1) MDRO/CDAD Summary Data (Denominators) – where location denominator data are shared, and 2) MDRO/CDAD Process & Outcome Measures – where hand hygiene, gown and glove use, and active surveillance testing data are shared.
